Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Discussed amending the claims such as changing "including a gear selector sensor for" to --configured to--, etc. Discussed making similar amendments in the rest of the claims to overcome MPEP 2114 and the other rejections thereto. Applicant's representative argued that the prior art does not disclose "input tire size". Applicant was advised to change, "input device for an operator to input tire size" to --input device configured for an operator to input tire size" to positively recite the limitation. It was agreed that the examiner will reconsider the case for prosecution upon filing an RCE .
